

## PRODUCT IDENTIFICATION

| Description  |  |
|--|--|
| SP-1P-0-002 is a block copolymer with ethylene oxide, lactide and glycolide units. |  |

| Reference   | Designation    | CAS Number  |
|-------------|----------------|-------------|
| SP-1P-0-002 | PEO-block-PLGA | 952111-10-3 |

## PHYSICAL / CHEMICAL PROPERTIES

|  |   |
|--|---|
| Physical Aspect  | White Powder  |
| Composition<br>(RMN <sup>1</sup> H measurement)              | n=on demand<br>m= on demand<br>x= on demand<br>y= on demand |
| Molecular Weight (g/mol)<br>(RMN <sup>1</sup> H measurement) | on demand   |
| Solubility in  | Acetone, Chlorinated solvents, THF                          |

R&D

- Innovative monomers and polymers

## NMR SPECTRA

### <sup>1</sup>H NMR (CDCl<sub>3</sub>)
