

## PRODUCT IDENTIFICATION

| Description   |
|---|
| SP-3-00-002 is an aromatic chemical with two carbonate functions. |

| Reference   | Designation                 | CAS Number |
|-------------|-----------------------------|------------|
| SP-3-00-002 | Bis Carbonate Terephthalate | 85758-84-5 |

## THEORETICAL PHYSICAL / CHEMICAL PROPERTIES

|                                 |   |
|---------------------------------|---|
| <b>Physical Aspect</b>          | Powder                                    |
| <b>Molecular Weight (g/mol)</b> | 366,28                                    |
| <b>Functionality</b>            | 0,546 mol of carbonate / 100 g of product |
| <b>Solubility in</b>            | DMSO, Toluene                             |
