

PRODUCT IDENTIFICATION

Description
HEMA Homopolymer is a methacrylic polymer with alcohol functions.

Reference	Designation	CAS Number
SP-4P-3-004	HEMA Homopolymer	25249-16-5

THEORETICAL PHYSICAL / CHEMICAL PROPERTIES

Physical Aspect	White Powder
Molecular Weight (g/mol)	On demand

Solvents	Methanol, Tert-Butanol
-----------------	------------------------

NMR SPECTRA
