

PRODUCT IDENTIFICATION

Description
SP-5P-9-002 is a statistical styrenic copolymer containing styrene and chloromethylstyrene units.

Reference	Designation	CAS Number
SP-5P-9-002	Styrene-co-Chloromethylstyrene	29464-22-0

THEORETICAL PHYSICAL / CHEMICAL PROPERTIES

Physical Aspect	White Powder
Molecular Weight (g/mol)	6500
Composition	x = 0,92 y = 0,08

Solvents	Chloroform, Dioxane, THF
-----------------	--------------------------

NMR SPECTRA
